Portfolio: <https://my-portfolio051.netlify.app/>

Professional Summary

Passionate and self-driven Full-Stack JavaScript Developer with hands-on experience building responsive web applications, REST APIs, and real-time applications using JavaScript, React, Node.js, Express.js, Firebase Authentication, Cloud Firestore, HTML, CSS, and Tailwind CSS. Experienced in authentication, CRUD operations, API development, database integration, responsive design, and deployment through project-based learning and internship experience.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, Tailwind CSS, Responsive Design, DOM Manipulation

Backend: Node.js, Express.js, REST API Development

Database & Cloud: Firebase Authentication, Cloud Firestore, MongoDB (Basic), Cloudinary

Tools: Git, GitHub, VS Code, Vite, Netlify

Experience

Full-Stack Developer Intern – Decode Labs (Remote)

June 2026 – July 2026 Developed RESTful APIs using Node.js and Express.js. Built authentication and database-driven applications with Firebase Authentication and Cloud Firestore. Implemented CRUD functionality and collaborated using Git/GitHub.

Projects

Firestore Blog App

Technologies: JavaScript • Firebase Authentication • Cloud Firestore • Cloudinary • HTML • CSS
Developed a full-stack blogging platform with secure user authentication. Built real-time CRUD functionality using Cloud Firestore for creating, editing, deleting, and viewing blog posts. Integrated Cloudinary image uploads and user-specific post management. Designed a responsive interface optimized for desktop and mobile devices.

Firestore Authentication App

Technologies: JavaScript • Firebase Authentication • HTML • CSS

Built a secure authentication application with registration, login, email verification, authentication state management, and responsive forms using Firebase Authentication.

Live: <https://auth-app9.netlify.app/>

Express Todo REST API

Technologies: Node.js • Express.js

Developed a modular REST API supporting complete CRUD operations, organized routing, middleware, environment configuration, and REST best practices.

GitHub: <https://github.com/Chrisdanvic1/todo-api>

AI Chat Interface Clone

Technologies: React • TypeScript • Tailwind CSS

Developed a responsive ChatGPT-inspired interface with reusable components, modern UI, and scalable frontend architecture.

Multi-Page Business Website

Technologies: HTML • CSS • JavaScript

Designed and developed a fully responsive multi-page business website with structured navigation, organized information architecture, reusable layouts, and optimized mobile experience.

Core Strengths

- Strong problem-solving and analytical thinking skills.
- Ability to learn new technologies quickly and independently.
- Experience working with modern frontend frameworks and component-based architecture.
- Understanding of responsive design and mobile-first development principles.
- Familiarity with Git/GitHub version control workflows.
- Strong interest in fintech, software engineering, product development, and emerging technologies.
- Comfortable collaborating, receiving feedback, and continuously improving technical skills.
